SUMMARY

Aspiring MERN Stack Developer proficient in React.js, Node.js, Express.js, and MongoDB, with additional full-stack experience in Python, Java, and SQL gained across two development internships and multiple certified workshops. Comfortable building REST APIs, integrating databases, and delivering responsive, end-to-end web applications with a strong foundation in teamwork and adaptable learning.

TECHNICAL SKILLS

MERN Stack:	MongoDB, Express.js, React.js, Node.js
Languages:	Python, Java, JavaScript (ES6+), SQL
Frontend:	HTML5, CSS3, Bootstrap, Responsive Web Design
Backend & APIs:	RESTful APIs, JWT Authentication, Express.js
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, Visual Studio Code, Postman, Eclipse
Soft Skills:	Teamwork, Leadership, Adaptability, Communication

EXPERIENCE

Full Stack Development (Java) Intern | Approtech R&D Solutions Pvt. Ltd. (Online) June – July 2025

- Built and tested full-stack web modules using Java and MySQL, contributing to backend logic and database integration.
- Collaborated with a development team using Git/GitHub for version control and iterative feature delivery.

Full Stack Development Intern | Retech Solutions Pvt. Ltd. (Online) March 2024

- Developed responsive front-end interfaces using HTML, CSS, JavaScript, and React.js components.
- Assisted in integrating REST APIs to connect front-end features with backend services.

PROJECTS

Voice Activated Ordering System for Differently Abled Users Python, Speech Recognition, Accessibility

Repository: github.com/Umamaheswari3009/Voice-Activated-Ordering-System Deployed Link: voice-ordering-uma.vercel.app

An assistive ordering platform that uses voice-command navigation and processing so differently abled users can place orders hands-free.

- Built an accessible ordering platform enabling hands-free navigation and order placement through voice commands.
- Implemented speech-recognition and command-processing logic in Python to convert voice input into ordering actions.

E-Commerce Shopping Website React.js, Node.js, Express.js, MongoDB, REST APIs

Repository: github.com/Umamaheswari3009/E-Commerce-Shopping-Website Deployed Link: ecommerce-shopping-uma.vercel.app

A full-featured online shopping platform with a product catalog, cart, and checkout flow.

- Built RESTful APIs with Node.js and Express.js to handle product listing, cart operations, and order processing.
- Designed a responsive, mobile-friendly UI using React.js and Bootstrap, backed by MongoDB for data storage.

Social Media App React.js, MongoDB, REST APIs, JWT

Repository: github.com/Umamaheswari3009/Social-Media-App Deployed Link: social-media-uma.vercel.app

An application supporting user profiles, posts, and social interactions.

- Developed a dynamic, component-based UI using React.js and integrated MongoDB for persistent data storage.
- Implemented REST API endpoints with JWT-based authentication for secure user login and post management.

CERTIFICATIONS & WORKSHOPS

- Java Programming (Internship) — Interpe (October – November 2025)
- Full Stack Development (Internship) — Approtech R&D Solutions Pvt. Ltd., Tambaram (June – July 2025)
- Full Stack Development (3-Day Workshop) — Guvi & HCL
- Full Stack Development (30 Days) — Novitech R&D Private Limited (March – April 2025)
- Full Stack Development (Internship) — Retech Solutions Pvt. Ltd. (4th – 18th March 2024)
- Career Guidance Session — Grad Guru Innovation, One-Day Webinar (February 2026)
- Full Stack MERN Workshop — Nexila Technologies, One-Day Workshop (November 2025)

EDUCATION

St. Joseph College of Engineering — B.Tech, Information Technology 2022 – 2026 | CGPA: 8.04
